## Ex. 2

The purpose of this call is to discuss possible State activities to plan for external communications as the State proceeds to implement activities to return to compliance. We can also discuss what role EPA might play in some of these activities in explaining our role as final approval of Aquifer Exemptions and our oversight role.

I suggest we discuss what might be done to address the following stakeholder/interest groups during critical phases of the plan;

- Media,
- Local Government,
- Operators,
- Other local industries (ag, utilities, etc),

- Enviro,
- Federal and State Legislators.

Critical phases of the plan in 2015 could include;

- Issuance of shut-in orders for Category 1 wells that pose a risk to current use
- Release of the AE guidance
- October 15 deadline for shut in of <3,000 TDS Category 1 wells
- Approval of AE's
- Rulemaking
